

Focus On *Your* Business – We Focus on your IT!

At INTEK, we know you can't manage what you can't measure. Our 24 x 7 monitoring, alerting and reporting service provides us with the information, data, network performance trending analysis and security vulnerability information critical to service, plan and manage your IT environment.

You have invested in your IT infrastructure and rely on its performance, security and reliability. INTEK's services not only ensures you have a qualified team ready to service this critical asset but also the real time data to ensure its being done on time, when needed, using the most advanced network asset tracking and Performance monitoring

Monitoring and Reporting

- ✓ Our proactive monitoring and alerting identifies, tracks and reports on issues effecting the security, performance and reliability of your IT.
- ✓ By analyzing network device alerts, pre-failure indicators, performance benchmarks and security issues, preventative maintenance opportunities are identified.

Maximize Your Return on IT Spending

- ✓ Our service includes a complete asset inventory and regular health, security, and performance analysis reporting so that you can see what you have and how well those IT assets are working for you.
- ✓ Our improvement recommendations will help you lower your total cost of IT, including the hidden cost of downtime, substandard performance, and lost productivity due to incompatible or out-of-date software.

Features & Benefits

24 X 7 Monitoring, Alerting and Reporting

The screenshot shows a 'Central Dashboard' with a grid of system status information. The columns include System, Response, CPU, Mem, Net, Disk, and others. The rows list various systems like 'Hosted E...', 'Substrate...', 'VDP Ser...', 'Front Processor Fac...', 'Windows 2003 Servers', 'Tactical vPro', 'Routers and Switches', 'Windows Vista', 'Windows XP', 'Backup Server', 'Exchange Controller', 'Linux Servers', and 'Intruders'. Each cell contains numerical values and status indicators.

System	Response	CPU	Mem	Net	Disk	Other
Hosted E...	32	N/A	0	0	0	0
Hosted E...	36	N/A	0	0	0	0
Substrate...	33	N/A	0	0	0	0
Substrate...	4	N/A	0	0	0	0
VDP Ser...	0	N/A	0	0	0	0
Front Processor Fac...	00	3	39	0	0	0
Windows 2003 Servers	02	N/A	0	0	0	0
Tactical vPro	2	N/A	0	0	0	0
Routers and Switches	2	N/A	0	0	0	0
Windows Vista	3	N/A	0	0	0	0
Windows XP	27	N/A	0	0	0	0
Backup Server	0	N/A	0	0	0	0
Exchange Controller	2	N/A	0	0	0	0
Linux Servers	2	N/A	0	0	0	0
Intruders	2	N/A	0	0	0	0
Acce-Tab	4	0	0	0	0	0

Executive Summary
Website Availability
Site Performance

Real Time Alerting and Monthly Reporting

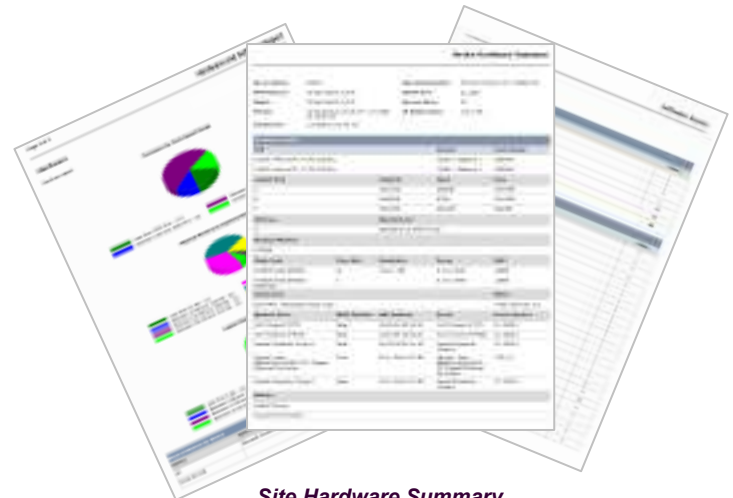

- Includes all systems, network devices, as well as website performance.
- Monthly reports provided and reviewed by INTEK

Asset Management

The screenshot shows a 'Device Management' interface with a sidebar on the left and a main content area. The main area displays details for a device, including its name, IP address, and various attributes.

Device Management – Hardware/Software

Site Hardware Summary
Device Attributes
Software Asset Inventory

Valuable Asset-based Control

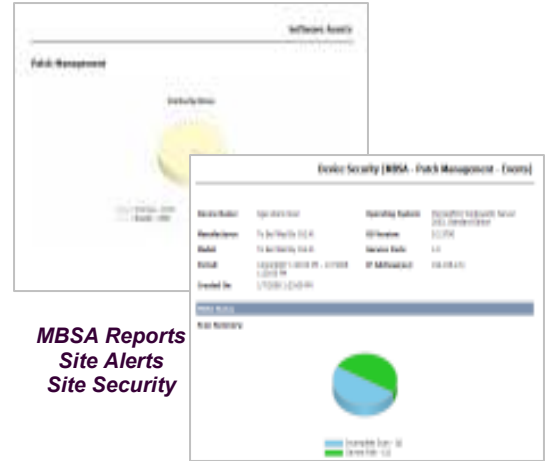

- Complete summary of hardware & software
- Comprehensive detail of all hardware and software asset inventories.
- Up-to-date warranty status information.
- Identification of unauthorized software

Features & Benefits

Security Assurance

Microsoft Baseline Security Analyzer Report

MBSA Reports
Site Alerts
Site Security

Reduced Risk

- Baseline security scanning to detect security holes
- Continuous monitoring for viruses, worms, spam ware, and other malware.
- Automated verification of data backup completion and identification of any failed backups

Preventative Maintenance

Patch Status Detail
Server Health Report

Preventative Maintenance

- Automated delivery of two preventative services.
- Up-to-date security patches for your desktops and servers and identification of failed or missing patches
- Comprehensive server health reports for all servers

Quarterly Business Review

Our network service program includes a Quarterly Business Review with your organization.

Prior to each QBR INTEK will audit all alerts and reports generated over the preceding 90 days and prepare a comprehensive analysis of our findings as well as demonstrate areas of cost savings, increased performance, any security vulnerabilities and overall health assessment of your network..

These meetings are designed to help ensure we:

- Are aligned with your IT business goals and address any changes as they occur; Present all the reports we have captured over the past quarter - ensuring you understand its overall impact to your business;

Our QBR summary and reports include:

- Executive Summary
- Website Monitoring
- Windows Server Health
- Work Completed Summary
- Site Performance
- Patch Status Detail
- Site Health
- Server Health
- MBSA and Patch Summary
- Asset Inventory
- Device Performance
- Site Performance
- Website Performance

- Review and update you on all the work completed in the last quarter and discuss project(s) in progress;
- Help identify IT solutions that will address existing and future IT requirements allowing you to ultimately make informed financial decisions.
